

TOTEV

KITCHENS

Thank you for checking our prices and considering us as your kitchen supplier! I genuinely believe our kitchens are the best on the market! I know this is a very self serving statement coming from me, and I know that what constitutes the best can be a subjective matter, but let me make my case! We offer a full design and build service from start to finish including the renovation works on site. Everything is handmade to measure in our workshop in West Sussex from quality and sustainable materials, such as Baltic birch plywood, American tulip wood, and English oak. And to top it off our prices are very competitive probably half of what you'd pay for other handmade kitchens!

Below you'll find a list of prices for our units, keep in mind that we make everything from scratch, so nothing is off limits. These are some of the most commonly used units, but if you have something else in mind please do not hesitate to get in touch, I am sure we can find a way to accommodate you!

The prices include supply, installation and hand painting on site in your desired colour scheme

The prices do not include, supply and fit of worktops. Because they can vary dramatically in price, it's best to price it up once you have picked the worktops you want. Or in the case of stone tops it's usually a third party that supplies and fits them

The prices also do not include first and second fix electrical and plumbing

Or any site preparation such as removing and disposing old kitchen cabinets, replastering and making good of walls and ceilings. However we do undertake that sort of work, and we'll be happy to price it up for you as part of the whole project
